

Club Update: CORVID-19

(SAFER) BUSINESS AS USUAL

Dear Members,

As Singapore has moved from DORSCON Yellow to Orange, the Club has implemented these new measures with immediate effect:

- **Compulsory Temperature Screening:** All Members and guests will have their temperatures taken at the Main Reception. If your temperature is below 37.5°C, you will be given a sticker that indicates you have been screened and you can proceed into the Clubhouse.
If your temperature exceeds 37.5°C, you will be moved to a designated location to wait for 5 minutes for another temperature check. If your temperature still exceeds 37.5°C, we will unfortunately have to turn you away to seek medical attention.
Please be reminded that Members have to continue signing their guests in using the guest book. All staff, vendors and delivery personnel will also be temperature-screened before they are allowed into the premises.
We thank you in advance for your cooperation and patience and apologise for any inconvenience caused.
- **Consolidated Entry Point:** To facilitate temperature screening, all side gates and doors will be closed to entry into the Clubhouse and entry will only be allowed via the Main Reception only. Please rest assured that fire safety guidelines will continue to be adhered to.

Existing measures will continue:

- **Face Masks:** These are available from the Members Services Desk (MSD) should you require one when in the Club.
- **Hand Sanitizers:** These are available at various points throughout the Club should you require them. Please note that we have also switched to anti-bacterial soaps for Members and staff bathrooms.
- **Daily Cleaning:** We have stepped up the frequency of cleaning in and around the Club - including back-of-house areas, kitchens, bathrooms, etc - and now use recommended cleaning disinfectants.

We will continue to closely monitor the CORVID-19 situation and will follow recommendations from Ministry of Health (MOH) and Ministry of Manpower (MOM).

We would also like to take the opportunity to respectfully request Members and guests who are unwell to refrain from visiting the Club. If you have recently returned from China, please also refrain from visiting the Club and monitor your health closely for 14 days from the date of your return.

The safety of Members, guests and staff are of our paramount importance and we encourage all Members and their guests to take care of their health and exercise civic mindedness even as we strive to minimise disruptions as best we can.

For the latest information from MOH, please visit the website at www.moh.gov.sg

Thank you very much for your patience and understanding.
